SERVING CANADIAN HEALTHCARE PROVIDERS

Canada Cartage provides the healthcare industry with dedicated trucks, dispatch services, specialized drivers, custom built equipment, supply chain engineering, and innovative technology tailored to the demands of your business.

We track and deliver Key Performance Indicators (KPIs) to our customers on a regular basis to monitor and optimize kilometers driven, cost per delivery, and on-time delivery percentages. We hold regular account meetings to review historical data and plan for future initiatives to ensure continuous improvement.
