

AN OUTSOURCED TRANSPORTATION PARTNER FOR THE CANADIAN FOOD AND BEVERAGE INDUSTRY

SERVING THE CANADIAN FOOD AND BEVERAGE INDUSTRY

Canada Cartage has been serving the food and beverage industry since the early 1900s. Some of our earliest customers included grocery stores, bakeries, food distributors and beverage companies. Throughout the years, our dedicated trucks, dispatch services, specialized drivers, customized equipment, supply chain engineering, and innovative technology have been tailored to the demands of our customers.

Canada Cartage tracks and delivers Key Performance Indicators (KPIs) for our customers to monitor and optimize kilometers driven, cost per delivery, and on-time delivery percentages. We hold regular account meetings to review historical data and plan for future initiatives to ensure continuous improvement.

From exceptional on-time delivery rates to hand-bombing and cart deliveries, we have built a superior service that meets your diverse needs with the following benefits:

CUSTOM FLEETS AND SPECIALTY EQUIPMENT

We have extensive experience operating temperature-controlled equipment, including fresh and frozen trailers, for both urban and long-haul highway deliveries. Our city delivery fleets have custom specs to navigate better through congested, urban areas. We represent some of Canada's biggest and most respected brands such as Sobeys, Loblaw and LCBO. Companies can choose to have our trucks and drivers outfitted in their logo and colours, following corporate standards.
